# Winners are Grinners at the Regional Business Awards

We're excited to share that iClick2Learn has won both the **Excellence in Diversity and Inclusion** and **Employer of Choice** at our regional business awards.

## Our Awards:

- **Excellence in Diversity and Inclusion** - this award recognises businesses that address the needs of a diverse community, including seniors, people from Culturally and Linguistically Diverse (CALD) backgrounds, and people with disability. An inclusive business facilitates the needs of all its employees and customers.
- **The Employer of Choice** - this award recognises a business that has implemented strategies and initiatives to create stimulating and supportive workplace environments for its employees.

iClick2Learn developed an organisational governance model with sociocracy at its core. Sociocracy is a system that's designed to create psychologically safe environments and effective organisational results. It's designed around working teams who have agreed objectives and make decisions on the areas that affect them in their role.

### Volunteering and Attracting Volunteers Post-Covid

“Volunteers play an important role, especially in hard times.

Covid has had a huge impact on volunteering.

Fewer people are volunteering and for shorter periods. One of the most important questions an organisation can ask is, “what do volunteers want post-Covid?”

Covid has highlighted the importance of safety and providing information to volunteers. Covid-19 has also shown that online meetings and remote working are possible and effective options. We'll call this flexibility.

Volunteers want to feel safe, well informed, and have flexibility.

Other volunteer needs are still the same : purpose, belonging, socialising, and acknowledgement.”

#### What do volunteers want post Covid?

Volunteers play an important role in hard times. That's why volunteers are so essential. You need to understand what volunteers want to attract and retain them.
