Suzie Foran

- Do you find yourself having difficult conversations with others in Your organisations?
- Do people often bring their problems to you?
- Do others find you a source of emotional strength?
- Do you deal with vulnerable people, or people with complex needs?

Then this taster workshop is for you.

Accidental Counsellor

Suzie Foran will explain what The Accidental Counsellor Course is and how it could help you handle all of the above situations and more.

This short taster workshop will explore:

- What is counselling?
- Types of communication
- Stress and anxiety
- Mental health
- Suicide awareness

At the end of this workshop, you will have a better understanding of what an accidental counsellor is, what they do, and if you would benefit from further training in this area.

Cyber Security Tip

There's a lot of news around regarding cyber security and potential vulnerabilities to user data. To help keep your data and information safe online there are a few things we can do. The biggest risk to your security online is using the the same simple passwords and for multiple logins. If someone hacks your email and password on one site and you are using the same password on other logins, then you are just making it easy cyber criminals do their job.

See the below chart on how long it takes to hack your passwords.

TIME IT TAKES A HACKER TO BRUTE FORCE YOUR PASSWORD

Number of Characters	Numbers Only	Lowercase Letters	Upper and Lowercase Letters	Numbers, Upper and Lowercase Letters	Numbers, Upper and Lowercase Letters, Symbols

So what do I need to do?

The first thing you need to do is change your password to a combination of at least ten numbers, upper case and lowercase letters and symbols. Right now you are saying " I wont be able to remeber all that". Well here is an example you can make your own password.

For example if I owned 1985 Ford Falcon, a password example could be

MyGr33n85E@l.coN or another 'passphrase' could be My '85 Gr33n E@lcon! You can see

my Gresson @ECON or another 'password' could be my 'Gresson' @icon! You can see how you can customise your password or passphrase to help you remember them. Lastpass website has an automated password generator you can use [PASSWORD GENERATOR HERE](#)

By the way we have updated our own Privacy Policy on our website [SEE HERE](#)

Celebrating Good Times

What a fabulous outcome! iClick2Learn delivered tender writing workshops for Transport for NSW that helped a small organisation to win a government tender! Great work JSIP team!

The JSIP team in Dubbo worked closely with local Aboriginal cleaning business, I Need A Cleaner, providing staff training and access to tender writing workshops which has helped them secure a cleaning contract on the Mindyarra Maintenance Centre

"The JSIP team were really supportive, they organised rail corridor and white card training for my staff and arranged for me to take part in a tender writing workshop which gave me the skills to apply for the Mindyarra contract", Ms Riley said
